Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 31 October 2003.

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-12 and 16-18 are rejected under 35 U.S.C. 102(e) as being anticipated by Gebrian et al.(US 2002/0155590).

The reference of Gebrian et al. discloses a broth container (14) that includes an octagonal cross section, an open top surface and a closed bottom surface. The container includes four mutually opposed pairs of connected sidewalls with a protruding rib formed on each of four perpendicularly opposed single sidewalls (See Figures 11A-11D and 12A-12B). With respect to the details of claims 2-11, see page 12, paragraph 0112 to page 13, paragraph 0115.

The reference of Gebrian et al. also discloses a broth canister (24) with latching flanges (323,325) as recited in claim 12 for holding container (14) (See Figures 14A-14B). With respect to the details of claims 16-18, see page 13, paragraph 0116-0117.

The applied reference has a common inventor with the instant application. Based upon the earlier effective U.S. filing date of the reference, it constitutes prior art under 35 U.S.C. 102(e). This rejection under 35 U.S.C. 102(e) might be overcome either by a showing under 37 CFR 1.132 that any invention disclosed but not claimed in the reference was derived from the

inventor of this application and is thus not the invention "by another," or by an appropriate showing under 37 CFR 1.131.

Response to Amendment

3. The affidavit filed on 31 Oct. 2003 under 37 CFR 1.131 has been considered but is ineffective to overcome the Gebrian et al.(US 2002/0155590) reference.

The evidence submitted is insufficient to establish a conception of the invention **prior** to the effective date of the Gebrian et al. reference. The evidence of record only establishes conception of the invention on the same date of the effective date of the Gebrian et al. reference. While the affidavit recites "on or before" the associated evidence only establishes a date of 24 April 2001 which is not **prior** to the effective date of the Gebrian et al. reference.

Furthermore, even if evidence is submitted that establishes the conception of the invention prior to the effective date of the Gebrian et al. reference, applicants would be required to also submit evidence of diligence between the date of conception and reduction to practice because **an abandoned application cannot be considered constructive reduction to practice** (See *In re Costello and McClean*, 219 USPQ 389 (CAFC 1983)).

Finally, the affidavit is ineffective to overcome the Gebrian et al. reference because it has not be signed by all of the inventors of the subject matter claimed. The current application includes multiple inventors while the affidavit has been signed by only one of the listed inventors (See M.P.E.P. 715.04).

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to William H. Beisner whose telephone number is 571-272-1269. The examiner can normally be reached on Tues. to Fri. and alt. Mon. from 6:15am to 3:45pm.
